The European Researchers' Night is a pan-European event promoted by the European Union to bring science and society closer and heighten young people's interest in science

Rethymnon – Institute for Mediterranean Studies (IMS-FORTH) 130 Nikiforou Foka St.

The Institute for Mediterranean Studies (IMS-FORTH) in Rethymno opens its doors for *Researcher's Night* on Friday, September 26, at 17:00, inviting the public to an event dedicated to science, technology, and culture, bringing together people of all ages.

- **Journey into the Past:** exploration of ancient environments through photographic material and screenings, as well as digital technology activities
- **Science for Children:** presentation of the imaginative comic *"The Magic Hourglass"*, dedicated to coastal and underwater archaeology
- **SeaLiT Board Game:** exploring the maritime history of the Mediterranean and the Black Sea
- **Meet the Institute:** history of the IMS building and the research developed within it
- **Conversations with Researchers:** direct contact and discussions with the scientific staff of IMS-FORTH
